THE MODEL 250XP is our largest and most popular 12-inch disc-style chipper. Because of its large 12 1/2" x 19" chipper opening and it’s 64-inch wide infeed hopper, this unit will easily chip large branches, trees, and forked material. The hydraulic feed system is also more powerful, allowing for greater pulling and compressing power. The Model 250XP has become the workhorse of the tree care industry. Because of the Model 250XP’s productivity, reliability and versatility, tree care organizations who have multiple chippers will typically have one or several Model 250XP’S in their fleet. There are now over 20,000 12-inch units in operation.

**PRODUCT OVERVIEW:**

12" CAPACITY DISC-STYLE CHIPPER

**THE MODEL 250XP**

**SLIDE BOX FEED SYSTEM**

**40-GALLON FUEL TANK**

**Built to Last**

All steel components on the 250XP are welded together for durability and longevity.

**Slide Box Feed System**

This system with down pressure springs eliminates the areas where material can hang up in the feed system.

**Larger Infeed**

The 250XP features a large infeed hopper opening of 29” x 64”.

**Bandit Model 990XP**

This compact 12” diameter capacity drum chipper specifically designed for municipalities, rental companies, and tree services looking for a high-performance lightweight chipper.
